## Alexandria Gazette

SATURDAY EVEN'G., JANUARY 3', 1880

### Electric Light.

A dispatch from London contains the result of interviews with prominent French scientists upon Edison's electric light.

One of the greatest scientists of the day, M. Joso Partiste Dumas, stated to a correspondent, in relation to the possibility of the carbonized cordboard herecahoe being held by the platinum clamp, that he would not protend to deny the authenticity of the actual facts, for he knew Mr. Edison's skill and his position to arrive at different results from those which he (M. Damas) had been able to obtain in his own

M. Niandet Breguet, too, the author of several valuable works on the ricity, said emphatically that "the number of witnesses who Were present at the experiments was too great to admit of the least doubt being entertained as to the reality of the results dec. ibed."

Mr. Cooks, the inventor of the radiometer. and M. Fontaine, president of the Syndicat d'Electricite, founded by the National Union of the Syndical Chambers, likewise bore testi mony to the extraordinary value of Edison's inventions. Indeed M. Fontaine believed that the discovery about the carbonized horseshoe had been made by a certain dexterity of manipulation, of which Mr. Edison has proserved the secret.

Such testimony as the foregoing to the grandeur of the results of the Menlo Park Wizard's labors must be gall and wormwood to the petty carpers against him. Men of the high standing of the gentlemen whose views are laid before our readers this efferneon are better able to judge of the importance of Mr. Edison's discoveries than all the legion of les per lights who have been snarling at them since the great American made them known. Moreover, let the thoughtful world remember that not one of these gentleman could afford to crr in judgment or make a careless statement in regard to the matter on which they were interviewed. Therefore, their words must silence Elison inventione.

## ALEXANDRIA GAZETTE FOR 1880

The Alexandria Gazette, begun in 1799, is the oldest newspaper in Virginis, and it has survived, with few exceptions, all the public presses in Americs which saw with it the dawn of the nineteenth century. It lives, too, not in decay or decrepit, but full of life and youthful vigor, giving all the news, telling the truth without lear, favor or affection, trenching on the privacy of no man's home, but full to the brim with all public information, and giving daily honest udgments of public men and public measures.

It furnishes the news telegrams of the New York Ascociated Press and of Reuter's European agency, being, with but two exceptions, the only paper between Baltimore and Rich mend that is thus connected with the great fountains of the world's naws.

With the coming year all the long tried and improved methods of making a standard newspaper will be continued, with such additional facilities as past experience justifies the preprietor in believing will add to the especity of the Clazette to serve its readers. It expects to render faithful service to the city, the state and the country by a candid criticism of mon and events ia the interest of the people of the Common wealth

The year 1880 will be a period of critical interest in both the Union and the Commonwealth. The election of the eighteenth President of the United States will take place, with all the combinations precedent, and counts; consequences and settlements subsequent, will call for record in the coming volume. The developments of the financial situation, which may portend affinence and comfort or poverty and privation to thousands, are now in progress, and the columns forever the carping herd that has specred at the of the Gazatte will note each step as well as chronicle the result. A new and striking foreign policy is among likely events, and the absorbing interest of it cannot be overestimated. In Vir ginia there is political chaos and industrial and commercial depression. The way out of this quagmire will fill many of those paragraphs with information of rare interest.

> To meet all the demands upon it in an exceptional year, the Gazette will be made a WASH-INGTON and RICHMOND NEWSPAPER, as well as an ALENANDRIA JOURNAL. The Richmond and Washington news of the past year has left little to improve, but yet greater effort will be made to insure absolute perfection in these departments.

The city of Alexandria will find as usual its daily history in each evening's issue, and the intelligence of that section of the Commonwealth which nature has bound to Alexandria by the curvature of its mountains or the courses of its rivers as well as that portion linked to us by the iron bands of rallways, will be assiduously chronicled.

The Business and Commercial columns of the Gazette will be filled with the earliest and most exact commercial news, edited with such painstaking care as will render an error, where even slight errors are dangerous, impossible.

The Uattle Markets of all the leading points of the world whose rates affect this market will be quoted, and regular statements of the Baltimore, Georgetown, Washington and Alexandria sales of cattle will appear.

The Flour, Grain and Produce movements will be noted daily, and the sales of the Alexandris and neighboring markets given with accuracy and dispatch. The Grocory and other markets will receive constant attention, and the money or stock markets of the country epitomized for its columns, full details being given to all stocks, &c , which find investors in this section of the country.

The advertising columns of the Gazetta offer inducements which experience has shown to afford greater returns for a small investment than any other which can be road a.

TERMS OF SUBSCRIPTION.

The beginning of the New Year, which in this case marks the advent of another decade of the world's progress, is deemed a fit time for THE COMMON SRNSE COOKER-Cooks new features, to that from this date the Cazette five or six different articles at the same time for the country (tri-weekly) will be supplied at FOUR DOLLARS per strong, in advance. THE NEW BATES.
